## About Me

**B.Tech student in Artificial Intelligence and Data Science at M.Kumarasamy College of Engineering** with a solid foundation in Python and intermediate-level skills in full-stack web development. Experienced in both frontend and backend technologies, and familiar with data analysis tools such as IBM Cognos Analytics and Watson Studio. Proficient in creating impactful presentations using Microsoft PowerPoint, with a strong interest in web development and building practical applications.

## Courses

- January 2025 – April 2025
  *Introduction To Industry 4.0 And Industrial Internet Of Things, NPTEL*
- April 2024 – May 2024
  *Python Basics, IBM Cognitive Class.*
- May 2024 – July 2024
  Data Analysis with Python, IBM Cognitive Class.

## Projects & Accomplishments

- **Unveiling Financial Insights – Python Project**
  *Developed a Python application for advanced financial data analysis, including data cleaning, exploratory analysis. Leveraged libraries like Pandas, and Matplotlib to forecast stock trends and visualize key market insights.*
- **School Exam Management System-MERN Stack**
  *Developed a web app for managing exam schedules, student records, and result processing with admin dashboard functionality.*
- **Data Analysis – IBM Watson Studio**
  *Cleaned and prepared structured data using in IBM Watson Studio to enable effective data analysis and visualization.*
- **BI Dashboards – IBM Cognos Analytics**
  *Designed automated dashboards and reports for visualizing and tracking data insights.*
